Bachelor of Technology - Electronics & Communication Engineering
at CUSAT
Ernakulam

Summary

I am an EC engineer undergrad CUSAT student looking for opportunities to enhance my existing skills/knowledge in the field of electronics, specifically on embedded systems, electronic system design and hardware description languages with keen interest in their applications on the front end of VLSI design industry. I am also a sports enthusiast who is passionate about Soccer and is a huge partisan of Manchester United FC.

I like to meet and greet new people, learn about the different cultures and experiences. I regard experience as the only true source of knowledge and that nothing can substitute it.

I am a consistent performer academically who is excelling well in extracurricular activities. I was also successful in handling many leadership roles in Student Organizations along with my academics.

You can reach me at alexsaby7@gmail.com

Experience

Dhishna

Secretary

July 2019 - Present (1 year 2 months)

Kochi, Kerala

Dhishna 2020 is the annual techno-cultural fest of School Of Engineering, CUSAT on the dates February 19, 20, 21. It is the largest techno - cultural college fest in South India. I am currently the Secretary of Dhishna 2020, coordinating and managing the overall events of the tech fests.
